STOKBORD® CABLE PROTECTION COVERS

MARKET LEADER
UNDERGROUND UTILITIES

STOKBORD® is a heavy protection product manufactured from high impact polyethylene sheet and is designed to withstand damage from plant and hand tools. It is ideal for fiber optic and HV electric cables. Cable covers are installed fully jointed, overlapped and held firm with plastic jointing pegs.

Sizes

Cable protection covers can be produced in thicknesses ranging from:

1/4 inch (6mm) to 1 inch (25mm)
in any width up to 4ft (1220mm)

Standard widths 6 inch (152mm), 9 inch (244mm)
and 12 inch (300mm)

Text and Color

Stokbord® Cable Covers are supplied with a top surface color background with yellow band containing the required warning legend in black. An example of standard text would be:

**CAUTION CAUTION
ELECTRIC CABLE BELOW**

NOTE: We can produce company logos, background colors and warning legends to individual customer requirements.

LEADER FOR UTILITY PROTECTION

CENTRITILE® CABLE PROTECTION ROLLS

Centritile® cable protection rolls are manufactured from high impact recycled polyethylene. Centritile® is a more flexible product supplied in roll format for quick and easy application. Suitable for low voltage, 11-13Kv, street lighting, gas and water piping.

Sizes

Cable protection rolls can be produced in thicknesses ranging from:

70 mils (1.8mm) to 200 mils (5mm)
in any width up to 2ft (610mm)

Standard widths 6 inch (152mm), 9 inch (244mm)
and 12 inch (300mm)

Text and Color

Centritile® cable protection rolls are supplied with a top surface color background with yellow band containing the required warning legend in black. An example of standard text would be:

**CAUTION CAUTION
ELECTRIC CABLE BELOW**

NOTE: We can produce company logos, background colors and warning legends to individual customer requirements.

STOKBORD® and CENTRITILE® can be manufactured in a variety of different colors with a distinct warning legend for each application as shown ▶

CENTRIFORCE

Changing the face of plastics

Market Leader for Underground Utility Protection

Utilities started to look at alternative materials to protect their underground cables over 20 years ago.

Already established as a leader in plastic materials, Centriforce quickly became their major supplier.

Since then, we have worked alongside utilities throughout the world, who have recognized the significant benefits that we summarize below.

STOKBORD® is the modern, safe solution to underground services protection.

What are the benefits of using **STOKBORD**® and **CENTRITILE**® cable protection products?

- ✓ PROVIDES WARNING TO THIRD PARTIES
- ✓ OFFERS BOLD WARNING FOR CLEAR IDENTIFICATION
- ✓ PERSONAL INJURIES LESS LIKELY
- ✓ LIGHTWEIGHT AND EASY TO INSTALL IN ALL WEATHERS
- ✓ DAMAGE TO CABLES OR PIPES LESS LIKELY, REDUCING COST OF REPAIRS AND SUPPLY DISRUPTION
- ✓ DURABLE, ROTPROOF AND EXCELLENT IMPACT RESISTANCE
